

## PSYCHOLOGY AND MEDICAL DATABASES

*To locate psychology and medical databases, follow this simple path!!*

- Dwight Anderson Music Library Home Page
- University Libraries
- Article database by topic
- Psychology
- PsycINFO
- Ovid
- Start database

You have now reached the page from which you will reach the majority of all psychology and medical articles you will need for your research. Select Medline or PsycINFO and use the following helpful hints to navigate.

### **Helpful hints**

Select Basic.

Limit by human (unless you really want animal studies).

While thousands of the articles will appear here as full text, thousands of valuable articles won't. Be cautious when limiting by full text.

Don't trust the statement **Not held by University of Louisville Libraries**. (Perfection is difficult to achieve but we're trying . . .)

Always click on [Library holdings](#) to see if we own the journal.
