

How to Create a Reference Manager Z39.50 Host & Database Connection for the UofL Libraries' Minerva Catalog

You can use a feature of Reference Manager to search and import results from the UofL library catalog, Minerva. To do this you must first create a Host and Database connection by following these steps:

1. Open Reference Manager. Go to References->Internet Search, then choose "Z39.5 Sites" on the drop down menu.
2. Click on the  icon. A pop-up will appear displaying a list of pre-configured host sites. Click on **Configure Hosts**.
3. On the **Configure Hosts** popup, select **New Host** and another popup will appear. Enter the information shown below:

The screenshot shows a 'Host Properties' dialog box with the following fields and values:
